

DATA ARCHITECT

Design & implement a flexible data-warehouse & analytics layer (data platform)

Ingest data from multiple sources & build appropriate reporting platforms

Full time 12 Month Contract - Great employer - Northern Beaches location

Blackmores is a market leader in developing and marketing products and services throughout Australasia that deliver a more natural approach to health. We are passionate about delivering high quality products and services and we always seek to employ people who share this vision.

Are you a conceptual designer and thinker with a broad appreciation and literacy across the data integration, data processing, analysis, discovery and reporting landscape?

Reporting to the Head of BI and Analytics within the Information Technology business unit, ideally you will have:

- Proven strategies for managing the expansion, performance and scalability of data platforms.
- Extensive experience in Data and Analytics Modelling and Architecture roles.
- Experience working with multi-platform data sources and multi-language data sets.
- Experience with data integration and processing tools (ETL)
- Understanding & Experience implementing Data Governance and MDM processes.

You will become the champion for the data platform, its use and adoption across the wider Blackmores group.

You will also play a key role in influencing and delivery of projects in-flight and in the pipeline while also providing strategic architectural and design direction across the business.

You will be working with a company that is at the forefront of the health and wellbeing community on the Internet, with a strong customer focus and real passion in all we do.

Blackmores are also recognised as a great employer that offers employees a range of benefits and programs designed to foster personal development.

To provide an expression of interest in this career enhancing opportunity, please follow the link <http://rerecau.com/rethink2/jobs/view/651>

You will be asked to provide contact details; attach your resume and answer preliminary questions to assist us in quickly communicating with all applicants.

Thank you in anticipation of your interest in this opportunity with us.

Applications close 9th April 2017
