

IT Technical Infrastructure Analyst

Make an impact at one of Australia's most trusted brands

Assist in deployment of new WAN through Asia

Based in Head Office - Warriewood

Blackmores is a market leader in developing and marketing products and services throughout Australasia that deliver a more natural approach to health. We are passionate about delivering high quality products and services and we always seek to develop and promote people who share this vision.

The primary function of this role is to implement, manage and support Blackmores IT Infrastructure and systems to meet the current and future needs of the business

Reporting to the IT Infrastructure Manager, an overview for the general functions you will undertake includes the following:

- Conducting regular systems maintenance activities
- Deployment of new WAN through Asia
- Supporting the migration to O365 and Azure
- Supporting the Blackmores IT team with level 2 and level 3 support
- Management and execution of other IT Infrastructure projects

We see you offering a strong Knowledge of IT Infrastructure and systems; proven problem solving and troubleshooting abilities; and experience in providing 2nd and 3rd level technical support.

Our culture supports the identification and presentation of ideas for continuous process and system improvements.

Blackmores is a smoke-free environment where the health of employees is valued and they are provided with an on-site gym, fresh healthy food from a subsidised staff café and generous product discounts.

An appropriate package commensurate with experience will be offered to the successful applicant.

If you wish to be part of an organisation where people are genuinely committed to the values that are at the heart of our business: passion for natural health; integrity; respect; leadership and social responsibility; then please click the link below
