BLACKMORES®

Technical Manager / New Product Development

Provide technical expertise with all facets of New Product Development

Head Office location, Warriewood

Blackmores is Australia's leading natural health company. We are passionate about natural health and inspiring people to take control of and invest in their wellbeing. We develop products and services that deliver a more natural approach to health, based on our expertise in vitamins, minerals, herbs and nutrients.

Reporting to the Director of Sourcing, this role has responsibility for the development, formulation, evidence assembly and liaison with manufacturers for new product development.

This role is ideally suited to someone who has had exposure to at least one of the following disciplines; medical sciences, nutrition, regulatory affairs, pharmaceutical formulation, manufacturing and quality.

You will have engagement with raw material suppliers and manufacturers for the purpose of NPD and you will develop formulas in collaboration with broader local and overseas teams based on scientific and traditional evidence, providing a researched and referenced scientific rationale.

Working closely with Project Manager for NPD, you will work with a cross functional team to ensure processes occur within the necessary timeframes to deliver a product to market.

In joining Blackmores you will be entering an environment that is enjoying year on year growth linked to existing and new spheres for regional markets and product categories.

Commensurate with experience, an attractive package will be offered to the successful applicant. You will also be invited to participate in the Blackmores profit share scheme.

To provide an expression of interest in this opportunity within the Product Development team, please follow the link
